

**1.** Start with Step 5 of the Dollar Bill Six Point Star. Fold over the front and back flaps to expose the short flaps.

**2.** Narrow the long and short flaps by folding sides into the center line. Start by folding the long flap first and follow through with the short one. Fold both sides.

**3.** Flip the folding over and repeat Step 2 on the reverse side.

**4** The narrowed bird base completed. Stretch the short flaps and flatten out the center square.

**7.** The narrowed bird base with closed sink (the center square is no longer visible). Fold up the lower flap to the back and fold down the two front flaps with diagonal flaps. Lay the work on its side, to complete the T-Fold.

**6.** Fold down the front long flap and fold the short flaps along the center line to complete the closed sink of the center point.

**5.** Fold down the center square and short flaps.

**8.** T-Fold. a. Take half of the horizontal point and fold down, without reverse folding (crimp fold). b. Take one fourth of the head section and fold down, using an inside reverse fold. c. Thin down the front legs by folding inward.

**9.** The Proud Giraffe.
